

<p style="text-align: center;">Volunteer Information Role D: Grant Co-ordinator</p>

Description of What is Needed:-

There are a huge number of grant awarding bodies and funds set up to help specific groups doing positive things in their communities Blackpool Tiggers will qualify for funds given for ongoing service or capital equipment purchase for things like, children, disability, social inclusion, not for profit, family inclusion, small community groups, sports, deprivation. One of the barriers to accessing these funds is someone to research, prioritise and organise our bids for these funds. With external funding we will be able to ensure Tiggers continues to provide the service available, improve the service, extend it and encourage other groups to become established. This is a vital role.

Skills and Qualifications Needed:-

Experience in grant application, preparing funding bids, administration and preparing reports would all be exceptionally welcome. It is likely to require research using the internet and the ability to use Word and Excel. The volunteer would receive support and guidance from the Chair and Treasurer. Those without experience but with a methodical approach to reviewing, ordering, prioritising and presenting information may also find the work interesting and rewarding.
